

SUMMARY

Experienced MERN Stack Developer with a strong foundation in Node.js, Express.js, React.js, and Next.js. Proven ability to thrive in fast-paced environments, demonstrated by winning MLH hackathons and crafting innovative solutions using various APIs. A dedicated learner with a track record of delivering dynamic web applications and continuously adapting to evolving technologies

EDUCATION

Don Bosco High School,Vadodara

Completed Higher Secondary Education
2019 – 2020

Drs. Kiran and Pallavi Global University

Pursuing BTech in Computer Science
2021 – 2025

SKILLS

- Proficient in building full-stack web applications using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Skilled in creating RESTful APIs and server-side logic using Express.js
- Proficient in integrating APIs, handling authentication, and implementing middleware
- Solid grasp of common data structures (arrays, linked lists, stacks, queues) and algorithms (searching, sorting).
- Experience working in an Agile development environment, participating in sprint planning, and using project management tools.
- Strong problem-solving skills, with the ability to debug and troubleshoot complex issues in code.
- Strong understanding of JavaScript, including ES6+ features.
- Proficient in C++ for implementing data structures and algorithms.

EXPERIENCES

SSIP

- Explored JavaScript and gained hands-on experience in building dynamic web applications
- Learned to utilize Firebase for real-time database management and authentication.
- Developed a project within a limited time frame, enhancing time management and rapid prototyping skills.
- Embraced continuous learning in web development, adapting to new technologies and frameworks

Chathacks (MLH Hackathon):

- Demonstrated proficiency in React by participating in the development of an advanced chatbot solution.
- Progressively improved a basic chatbot concept, integrating Alan AI to elevate functionality.
- Secured 1st place in the hackathon, showcasing effective teamwork and problem-solving abilities.

Writesonic Hackathon

- Leveraged various API components to create an integrated content solution called "Contentify."
- Expanded API integration skills, reinforcing the ability to work with diverse third-party services.

Hack Your Portfolio(MLH)

- Acquired practical knowledge in building dynamic web pages using React for a personalized portfolio.
- Demonstrated proficiency in interacting with the GitHub API to dynamically showcase project repositories.
- Gained hands-on experience in integrating external APIs into web applications for enhanced functionality.
